

Quinn Rodriques

Senior UI/UX Designer

Over a decade of experience shipping interfaces for award-winning games and digital products. Specializes in translating complex systems into intuitive, refined experiences.

hi@quxnn.com

Education

Carleton University / Bachelor of IT, Interactive Multimedia and Design
Algonquin College / Advanced Diploma, Interactive Media Development
SEPT 2018 - APR 2022

Skills

Design: Figma, Adobe Creative Suite, After Effects, Miro, Sketch
Workflow: Jira, Confluence, Notion
Engineering: C#, C++, Unity, Unreal Engine
Methods: Design Systems, Accessibility Standards, Prototyping, User Research

Experience

Senior UX Designer / Snowed In Studios

MAR 2021 - APR 2026

Owned end-to-end UX design across multiple shipped titles from AAA console releases to mobile

Oversaw WCAG-aligned accessibility integration including high contrast, screen reader, and colorblind modes, contributing directly to Forza Motorsport's Game Award win for Innovation in Accessibility

Scaled a cross-platform design system of hundreds of production-ready UI components and VFX assets

Lead UX Designer / Capita

FEB 2020 - MAR 2021

Led end-to-end UX design for a blockchain-based investment platform, translating stakeholder requirements into user flows, wireframes, and high-fidelity interactive prototypes handed off to engineering

Conducted iterative usability testing to validate design decisions and refine core user journeys across both investor and admin-facing product surfaces

UX Designer + Marketing Specialist / Neurovine

JUN 2019 - FEB 2020

Conducted usability studies with approximately 100 concussion patients, synthesizing research findings to drive UX improvements and ensure the software met accessibility standards for users with cognitive impairments

Developed end-to-end corporate brand identity and go-to-market strategy, establishing a measurable social media presence across key channels within the first three months of launch

Awards

Innovation in Accessibility & Best Sports/Racing

Forza Motorsport - The Game Awards 2023

Code/Design to Win Finalist

Ranked within Canada's top 20 young UX designers
